COVID-19 Update

3/23/2020

Hello,

There continues to be new developments, guidance and information regarding the COVID-19 situation emerging on a near constant basis. Leadership at Pantheon continue to monitor and evaluate these developments and are committed to ensuring we provide services that are safe, necessary and compliant with all current health efforts and mandates.

Regarding the recent "Safer at Home" Order made by the Governor, Pantheon consulted with our trade association leadership and State departmental guidance to determine how that may impact our services.

Department of Human Services (DHS) leadership has indicated at this time, that they believe day and prevocational services may still be essential services for those who rely on them and may not have safe alternative options if displaced.

To continue meeting the needs of those we serve, Pantheon will continue to be open and available for those who choose to participate in our pre-vocational and community based services. We continue to work hard to ensure we are in compliance with all State and CDC guidelines for safe programming and proper implementation of all safety measures and best practices. We have continued to implement our proactive infection control policies and social distancing in the work place.

As always, we are constantly monitoring the situation and will keep you posted if anything should change. Please feel free to reach out with any questions or concerns.

Stay safe, and we will get through this together!

Sincerely,

Rick Block
Executive Director

Erik Martin
Operations Director
